

Task 3 – VideoHub (YouTube Inspired UI Clone)

Internship Task Submission

Project Title

VideoHub – YouTube Inspired UI Clone

Objective

The objective of this project was to design and develop a modern YouTube-inspired video streaming interface using HTML, CSS, and JavaScript. The application focuses on creating a responsive and interactive user interface with modern design principles while replicating the overall experience of a popular video streaming platform.

Technologies Used

- HTML5
 - CSS3
 - JavaScript (Vanilla JS)
 - CSS Flexbox
 - CSS Grid
 - Responsive Web Design
 - Google Fonts (Inter & Roboto)
-

Features Implemented

1. Responsive Navigation Bar

- Sticky top navigation
- Search bar with search functionality
- Notification icon
- Profile dropdown
- Responsive layout

2. Expandable Sidebar

- Home

- Shorts
- Subscriptions
- Library
- History
- Watch Later
- Liked Videos
- Settings

3. Category Filter

- Horizontal scrolling categories
- Active category highlighting
- Interactive category buttons

4. Video Gallery

- Responsive video card grid
- Thumbnail images
- Channel avatars
- Video title
- Channel name
- Views and upload time
- Duration badge

5. Interactive Features

- Search filtering
- Loading skeleton animation
- Profile dropdown menu
- Sidebar toggle
- Hover animations

6. Responsive Design

- Desktop view
- Tablet view

- Mobile view

7. Modern UI

- Dark theme
- Smooth transitions
- Professional layout
- Custom VideoHub branding

Folder Structure

VideoHub/

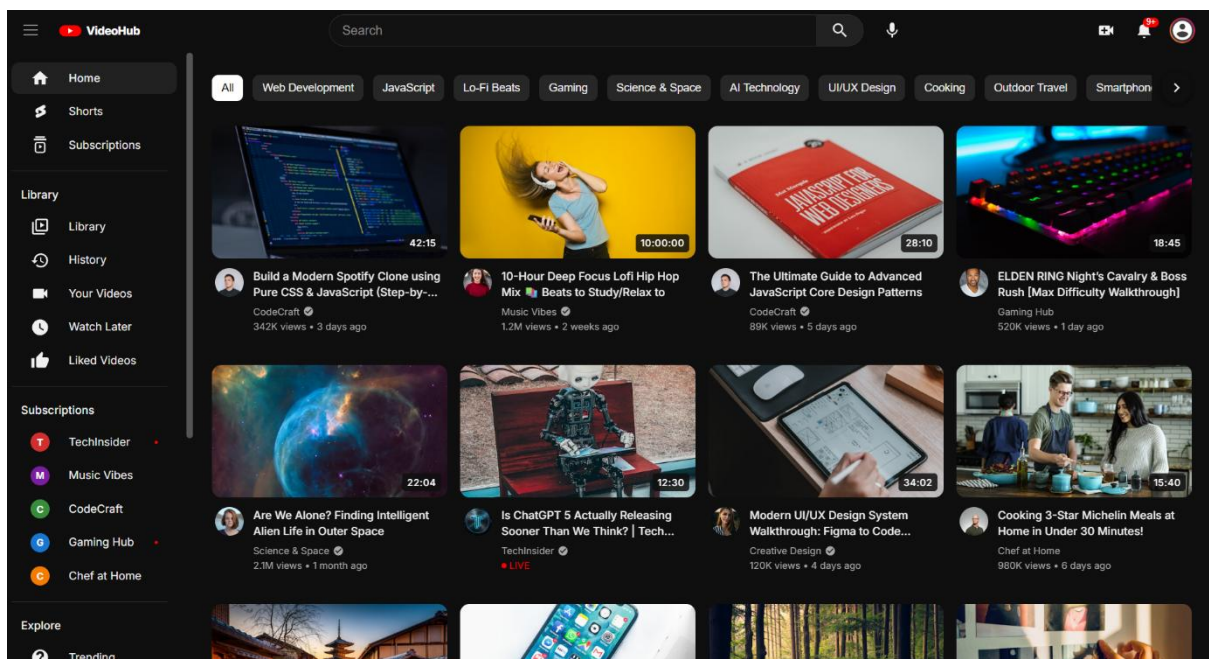

└─ index.html

└─ style.css

└─ app.js

└─ images/

Important Code Snippets

Search Functionality

```
function setupSearch() {  
  searchForm.addEventListener('submit', (e) => {  
    e.preventDefault();  
    searchQuery = searchInput.value.trim().toLowerCase();  
    loadVideosWithSkeleton();  
  });  
}
```

Sidebar Toggle

```
menuBtn.addEventListener('click', () => {  
  sidebar.classList.toggle('expanded');  
});
```

Learning Outcomes

Through this project, I improved my understanding of:

- Responsive Web Design
- HTML5 Structure
- CSS Flexbox & Grid
- JavaScript DOM Manipulation
- Interactive UI Development
- Modern Frontend Design
- User Interface Components
- Mobile-First Development

Conclusion

VideoHub is a responsive YouTube-inspired UI clone developed using HTML, CSS, and JavaScript. The project demonstrates modern frontend development skills through responsive layouts, interactive components, smooth animations, and clean user interface design while maintaining an organized and user-friendly experience.
